

**The  
Way  
to  
Wellness  
and  
Healing**

For Bradford McIntyre,  
the HIV virus is NOT  
a death sentence.

"Life is a Celebration!"

**O**n November 28th, 1985, my doctor informed me that I had 6 months to live. I was advised that I should inform my family and arrange my finances and funeral.

It has been 11 years now with some opportunistic infections, but no progression

to full-blown AIDS. Because of the impact HIV has had on my life, I am committed to sharing the many positive approaches and techniques I have incorporated into my Life and Healing. If you would like to learn more about these alternative approaches to healing and living, then I would like to meet you.

**S**ome approaches I use in conjunction with current medical resources are:

- Healthy diet
- Exercise
- Meditation
- Visualization
- Reiki
- "A Course in Miracles"
- Body rebalancing
- Craniosacro-therapy
- Massage/therapeutic touch
- Reflexology
- Detoxification
- Colon therapy
